### **About The American Legion:**

- “The nation's largest veterans service organization, we relentlessly champion veterans and service members on Capitol Hill, support military families, and are dedicated to preventing veteran suicide.”
- Founded by an Act of Congress after World War I in 1919, The American Legion fiercely advocates for the unique needs of every generation of veterans, service members, and their families who pledge to protect our nation
- The most local entity is a post. Some of our posts have buildings, charitable gambling, a bar, a restaurant. Some have none of these. The statewide entities are called “departments,” thus, we are the Department of Minnesota.

### **The American Legion Department of Minnesota:**

## About The Veterans of Foreign Wars:

- The Veterans of Foreign Wars of the United States is a national, non-partisan, non-secretarian organization composed exclusively of citizens who have seen "foreign service" in the United States Armed Forces.

# CTF partners

**Minnesota**  
Department of Veterans Affairs

# ***Minnesota Commanders' Task Force 2025 Legislative Priorities***

Congressionally chartered veterans organizations in Minnesota working together to pass legislation on behalf of all veterans.

## Priority 1 - Separate Veterans Omnibus Bill

**Pass a clean Veterans Omnibus Bill in the 2025 session.** The first Veterans & Military Affairs Omnibus Bill was passed in 2022. This has separated our legislation from partisan trading and should be Minnesota precedent, like an ag bill, tax bill or transportation omnibus bill. We also had our own omnibus bill in 2023-2024. We continue to advocate for our own omnibus bill, so it's abundantly clear what Minnesota veterans want.

## Priority 2 – Hunting, Fishing, & Trapping for Veterans

When we look at other states known for their outdoor activities like hunting and fishing, we see benefits intended to show appreciation and get Veteran back to the outdoors. Minnesota has lagged in this area and for over 10 years the CTF has had this as something we would like to see changed to provide our Veterans with similar opportunities.

### **We ask you to support:**

- Change MN DNR's license fees for Veterans 50% or greater service-connection to a greatly reduced cost license (set at the minimum amount for the license to qualify for federal excise funds are \$3).
- Recognize all veterans be recognized in MN by setting the out of state license price for non-resident veterans to the resident license price.

## Priority 3 – Modernize the Disabled Market Value Exclusion - Veterans

The exclusion values for disabled veterans and surviving spouses have not changed in over 10 years while home values have dramatically risen, reducing the impact of this benefit. We cannot allow Minnesota veterans to lose their homes as prices continue to skyrocket and the property-tax exclusion benefit becomes less and less effective.

### We ask you to support:

- Increase the exclusion amount for 70-100% disabled veterans to \$200,000
- Increase the exclusion amount for 100% permanently and totally disabled veterans to \$400,000
- Index the new values to inflation
- Remove references to honorable character of discharge from the statute.
  - County assessors should not spend time and taxpayer dollars evaluating character of service, or making wrong decisions that remove veterans from benefits.
  - The federal VA has already deemed the character of service honorable for disability compensation purposes.

## Priority 3 – Modernize the Disabled Market Value Exclusion – Surviving Spouses

There are several areas of the current market value exclusion statute that are unfavorable to surviving spouses and exclude them from receiving the benefit.

### We ask you to support:

- Remove the equal or lesser value language for surviving spouses.
  - It is often more expensive to downsize from a large home that is already paid off to a smaller home, town home, or a condo.
- Remove all remaining time limits for a surviving spouse to apply for the exclusion.
- Allow active-duty spouses to apply for the exclusion when they return to Minnesota, after the death of the veteran.
  - MS 273.13, Subd. 34(d), says the surviving spouse must file within two years of the death and must live in the home at the time of the death. This needs to change.
- Allow surviving spouses to remarry and retain the benefit.

## Priority 4 – Minnesota Claim Shark Bill

There is a proliferation of parties advertising their services to advise veterans on VA benefits claims. Some of these parties are not accredited with the VA and charge steep fees for their services which causes financial hardship for veterans in need. County veteran service officers (CVSOs) and other governmental veteran service officers are accredited to file VA benefits claims for veterans, and they will never charge a fee. It should not be too much to parties that charge fees for their services to obtain VA accreditation.

### We ask you to support:

- Expand 197.6091 to include VA accreditation requirements.
- Require written fee agreement before parties render veterans benefits services.
  - The agreement must comply with Code of Federal Regulations, title 38, section 14.636, paragraph (g).
- Prohibit guarantees of veteran benefits
- A violation of this section is an unlawful practice under section 325F.69 and a person who violates this section is subject to the remedies provided in section 325F.70.
- Any civil penalty recovered shall be deposited in the Support Our Troops account established under section 190.19.

## Priority 5 – Food Insecurity

Food insecurity is a growing problem among Minnesota veterans. In the 2023-2024 biennium, \$540,000 per year in legislative funding to Metro Meals on Wheels addressed this problem in metro areas. However, food insecurity persists in rural and outstate Minnesota. Transportation is an issue, especially for disabled veterans and because of long distances to resources. Many of the food resources are not healthy and are dried or canned goods. Many veterans are also not aware of veteran specific resources available to them, since outreach is lacking in these areas.

### We ask you to support:

- Funding of \$500,000 per year to LSS CORE to deliver food insecurity services to areas of the state not currently served by Metro Meals on Wheels.
- Lutheran Social Services CORE already has adequate facilities and production infrastructure and has been delivering these services since 2024. Their program can be scaled up to meet this need in the rest of Minnesota, so all Minnesota veterans have adequate nutrition.
